

Information Technology and Managed Services

*Pearl Technology helps your
business run seamlessly.*

The Connection That Matters Most

Proactive IT Support

No matter your core business, technology plays an important role in your daily operations. So, when it fails, your business suffers. But it doesn't have to.

We keep your business running smoothly by detecting potential problems before they occur. And if a problem arises, our local, certified technicians can quickly resolve it.

Pearl Technology is here to manage your technology so you can focus on running your business.

See what our customers are saying:

"We rely on Pearl as **a real partner** in how we can use technology to advance the Goodwill mission. Their team is as **passionate** as we are."

– *Bob Parkhurst, Vice President of Administrative Services,
Goodwill Industries of Central Illinois*

"Pearl keeps our technology **current, up and running**, and provides us with the service we need when we need it."

– *Jeannine McCallister, Executive Director,
Advocates for Access*

"We started the [IT Project] ourselves, and there's no way we could have accomplished what we did without **Pearl's help**."

– *Mark Lasswell, IT Director,
WTVP - Peoria*

Solutions Based on Performance

We believe actions speak louder than words. That's why we take a best-of-breed approach to the products we offer...meaning we offer solutions based on performance, not brand name.

If you're worried hardware from different vendors won't work well together, don't be. Our team will integrate your top-of-the-market products to create one harmonious system.

Our range of IT products includes, but is not limited to:

Network Infrastructure

- Cisco Systems Routing and Switching
- Palo Alto Networks Next-Generation Firewalls
- Aruba Enterprise Wireless LAN Solutions
- Cisco Meraki Solutions

Data Center

- VMware and Microsoft Virtualization
- HPE and Cisco UCS Servers
- Nimble Storage SAN Solutions

Cloud: Private, Public, Hybrid

- Microsoft Azure
- Amazon Web Services
- VMware Cloud Services

Communication Solutions

- Office 365
- Mimecast Cloud-Based Email Management
 - Targeted Threat Protection
 - Archive Solutions
 - Secure Messaging and Encryption
 - Secure Large File Sharing
